Empathy Map

User Empathy Mapping Analysis

Below is the categorized empathy map for our primary user persona (Urban Recycler):

- SAYS: 'Is this cup code #5 recyclable?', 'Where do I take old laptop batteries?'
- THINKS: 'I want to protect the earth but the guidelines are confusing.', 'Wish-cycling is better than throwing in trash.'
- DOES: Throws questionable plastics in recycling bins, accumulates hazardous e-waste in the garage.
- FEELS: Confused by sorting regulations, guilty about dumping hazardous items in standard landfill bins.
