

Date	July 1, 2026
Team ID	SB-AI-2026-9284
Project Name	Sustainable Waste Management AI Assistant
Maximum Marks	2 Marks

Problem-Solution Fit Matrix

Mapping Pain Points to Technical Features

- Citizen Pain Point: Unsure if plastic items are recyclable.

Solution: AI Scanner identifies categories & codes. Reduces wish-cycling and bin contamination.
- Citizen Pain Point: Accumulating old laptops/toxic paints.

Solution: Map locates local E-waste/Chemical centers. Intercepts heavy metals before landfills.
- Citizen Pain Point: Unaware of personal waste footprint.

Solution: Analytics dashboard tracks volumes. Encourages proactive sorting behavior.
