Live Project Deployment & Demo Links

1. Production Endpoints

- ? Live Production Web Application (Render): <https://sustainable-waste-management-amrn.onrender.com/>
- ? Live Mirror Frontend client (GitHub Pages): <https://lokeshkodamanchili.github.io/Sustainable-Waste-Management/>
- ? Live Backend API Health Endpoint: <https://sustainable-waste-management-amrn.onrender.com/api/health>

2. Verification & Testing Details

All endpoints are live. The frontend build automatically routes relative API actions to the same Render host, bypassing CORS limits.
